Uni Dori Municipal Nursery School

This project occupies a total built up surface area of 1,271 square meters, with four sets of classrooms for up to 107 pupils. The sets include a 76-square-meter wing on one side for babies up to a year old, plus three modules, each of 130 square meters, containing a total of six classrooms, three for children from one to two years old and three more for children from two to three years old, each one with the capacity to accommodate 20 children. The project is comprised of brightly colored wooden cubes, for each of the different groups of children, based on a partially roofed, translucent surface. The design is a kind of boulevard or street, containing and developing the full range of school activities.

Renovation of the Teatre Principal

This building houses the Teatre Principal and belongs to the Badalona Town Council. Built in 1930, it was initially used as a cinema and was last renovated in 1998. It is currently used for the programming of shows of varying formats, aimed at a range of different audiences. The initial idea of the project was to create a multipurpose space for drama productions and other events and to provide the building as a whole with a spatial quality and design continuity that it had lost over the years as a result of its various changes in usage, multiple modifications and a certain lack of upkeep.
